25X1 [redacted]:

28 April 67

25X1 [redacted] has provided no statistics for an insert on page 48 for the reason that, strictly speaking, he has no statistics other than those he recalls (which are dated) and those which are available to him (and to others) from the press, Radio Havana, The University of Miami, Exile organizations, etc. Further, he has no study at hand regarding "the Cuban economy in its various phases". However, if desired he could rework some material available in Miami into a study in which case he would like a more specific pin-pointing of what is desired.
